3W RGB SMD GU10 Colour Changing LED Lamps

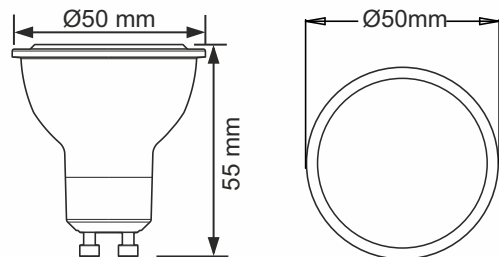

GULEDCC

The 3W RGB SMD Colour Changing LED Lamps are exactly the same size as traditional GU10 halogen lamps, so you can directly replace your older, inefficient lamps.

They change the colour from Red to Green to Blue in automatic sequence. Using RGB SMD LED chips the lamps slowly cycle through Red, Green, Blue colours .

Dimensions:

SPECIFICATIONS:

- Power: 3W (Red-0.8W / Green-1.2W / Blue-1.2W)
- Input Voltage: 220-240V/AC
- LED Type: RGB SMD LED
- Housing: Glass
- Socket: GU10
- Power Factor: 0.4
- Driver: Internal Non-Dimmable
- Beam Angle: 120°

These high performance LED's are of outstanding performance and quality and not to be confused with cheaper budget leds on sale!
