

GU10 COB4/6 LED Lamps

The GU10 LED COB Lamps are exactly the same size as traditional GU10 halogen lamps, so you can directly replace your older, inefficient lamps. Suitable for indoor or outdoor use in spotlights or downlighters.

Producing a super bright light, in warm white, neutral white and daylight these are the ultimate energy saving lamps.

Creating negligible heat they can last up to 15 times longer than halogen equivalents. LED lamps use a fraction of the energy cost of regular halogen lamps and will more than pay for themselves.

Dimensions:

SPECIFICATIONS:

Product Code	GUCOB4	GUCOB6
