

**LEDTEK®**  
Energy Saving LED

# LED Double-Ended Tubular Striplamp

The LEDTek LED Strip lights are the smart and cost effective choice when changing your current strip lights or designing your lighting layout from scratch. The strip lights are the equivalent of a 60W standard strip lamp and are virtually maintenance free.

They are widely used for concealed lighting such as under cabinets or cupboards in kitchens and clear types are often used in picture lighting.

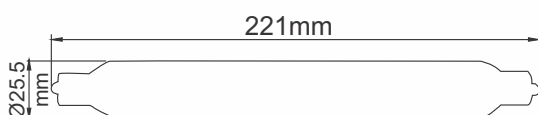

## Features:

- Voltage Range: 220-240VAC
- Nom. Watts: 221mm - 4W  
284mm - 6W
