

Telescopic Stool

FEFXPTS

SPECIFICATIONS:

- Material: Nylon
- Folded Size: 6.5 x 25.5cm
- Expanded Size: 44.5 x 25.5cm
- Weight: 1.28Kgs
- Recommended Maximum Load: 100Kgs (220lbs)

INSTALLATION:

1. Place thumb and index finger into the two holes on each end of the folded stool.

2. Pull both ends outwards until the clasps click into place (LOCKED). The stool is then ready for use.

3. The stool can be adjusted to your desired height.

4. When closing the stool, insert fingers into the holes on the top and bottom sections. Pull both ends outwards to detach the clasps (UNLOCKED) and rotate counter-clockwise to collapse the stool for storage.

ATTENTION:

- Sit in the centre of the seat.
- Do not sit on the edge of the stool, as it may tip over.
