

The Ultra Slim Rechargeable LED Cabinet Light is motion-activated and doesn't require any wiring. With a slim, light body that is easy to install on any type of surface and a rechargeable battery with a long lifetime, it makes the perfect illuminating option for tight spaces. The PIR sensor reduces battery consumption as it switches the lights off after 30 seconds when presence isn't detected.

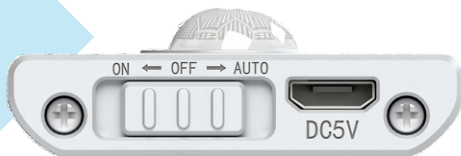

Suitable for cabinets, bedrooms, hallways, shoe cabinets, wardrobe, bookcase, kitchen, staircase, drawers, utility rooms, etc.
